Name That Tune may be coming to a Zoom classroom near you! Here's how the game works:

- I'll play the beginning of a song from one of our [History of Rock and Roll Playlists](#)
- You get a point for telling me the song title, artist name, **or** decade it was recorded. 3 points if you can tell me all 3.
- The winner in each class will get fame and glory. With your permission, I'll announce you as a winner on next week's music lesson and the Memorial LibTech Facebook page.
